

Oral Talks Session One 10:15AM-11:15AM

10:15-10:30AM	Ronard Herrera	Tunable functionalization and upcycling of polyolefins to polyurethanes
10:30-10:45AM	Bernard Whajah	Zeolite Supported Pt for Depolymerization of Low-Density Polyethylene by Induction Heating
10:45-11:00AM	Jacob Schekman	Investigating solvent effects on thiol-ene network formation
11:00-11:15AM	Weiliang Sun	Electric field stimulates hydrogels for desalination

Oral Talks Session Two 3:00-3:45PM

3:00-3:15PM	Paraskevi (Evi) Flouda	Mechanically Robust Ionogels with Hyperbranched Ionic Polymers for Enhanced Ion-Conduction and Energy Storage
3:15-3:30PM	Nduka Ogbonna	Precision bottlebrush polymers: Elucidating the impact of macromonomer dispersity on polymerization kinetic
3:30-3:45PM	Anthony Engler	Synthesis, Applications, and Depolymerization of Polyaldehydes
